Kent and Medway Domestic Abuse Strategy 2024–29

We are committed to preventing abuse and making sure that where domestic abuse takes place the people who are affected get the right support, quickly.

To create the strategy, we spoke to people about their experiences. We want to hear from you too.

Our 5-year plan includes:

Early Intervention and Prevention

Work to stop domestic abuse occurring and the impact escalating.

Immediate needs

Support, interventions and services to help people affected by domestic abuse.

Recovery

Enabling
people who
have
experienced
abuse to
thrive, heal
and build
resilience.
